Vision Control integrated louvers – over 80K installed!

As we move into 2016, we would like to take a moment to reflect on our growth over the past years. We are most proud of Vision Control® - our patented, hermetically sealed insulating glass unit (IGU) combining louvers within glass for both interior and exterior glazing applications.

Let's look at the numbers:

- Over 80,000 units sold to date!
- 1000s of hospital installations
- 100s of school, commercial, institutional installations
- Deployed in over 15 countries worldwide
- Winners of 16 major industry awards
- Time and again, Vision Control® has earned the top spot as a preferred solution for vision, daylight, heat and sound control.

Wishing you all the best for the year ahead –

The Unicel Team
